SUMMARY

Software Engineer with hands-on professional experience in web application development, experienced in React and TypeScript. Experienced in building scalable, user-centric interfaces, including enterprise telecom platforms. Currently pursuing a master's degree in computer science, strengthening core foundations in systems, algorithms, and modern software engineering practices. Adept at working in collaborative, cross-functional teams and delivering reliable, maintainable applications.

SKILLS

JavaScript, HTML, CSS, SCSS, Tailwind, TypeScript, Python, REST API, PostgreSQL, Docker, Git, Adobe XD, Figma

EDUCATION

University of Freiburg, Germany

October 2024 – Current

Master of Technology in Computer Science

SRM University of Technology, Chennai, India

July 2018 – May 2022

Bachelor of Technology in Computer Science

WORK EXPERIENCE

Software Engineer

June 2022 – October 2023

Airtel Africa Digital Labs (Gurugram, India)

- Built and improved user interfaces for an agent-facing web application, integrating **REST APIs** to support smooth customer interactions during in-store visits and support calls.
- Contributed to the development of a **token management system** used to display current and upcoming customer tokens on in-store screens, supporting smooth queue handling for service agents.

Technical Associate

February 2021 – April 2021

Sutherland Global Services (Bangalore, India)

- Regularly handled remote troubleshooting sessions to identify and resolve customer issues efficiently.
- Guided customers through solutions with clear, patient communication to ensure their issues were fully resolved.
- Ensured support cases were documented clearly to help with follow-ups and team references.
- Managed multiple customer cases at once and adapted quickly to changing priorities in a fast-paced support environment.
